Post Sustainablity Institute
http://www.postsustainabilityinstitute.org/

The Post Sustainability Institute was established to study the impacts that United Nations Agenda 21/Sustainable Development and Communitarianism have on liberty. Our intent is to track the progression of the Sustainability movement and to forecast the most likely outcomes if it proceeds unchecked.

We are a non-partisan, non-governmental think tank based in the United States. It is our intention to provide a clearing house for information on United Nations' alliances with non-governmental and governmental groups seeking to erect Communitarianism as the dominant form of world governance, and to serve as a rallying point for those who oppose the dismantling of liberty. If you remember some months ago a city in Iowa was fighting to stop the City Council from putting lock boxes on businesses and rental properties. Those people lost that fight and the ICC is what was used to implement this invasion of privacy by business owners and renters. Just another thing to drive home the point that we are no longer a sovereign country we have been sold to the New World Order of global governance.
